Sweetcorn Trial

Bloomfield Agro Products Pvt. Ltd.
Natural Farm Nutrients for Higher Yield and Quality

Soil Test:
02/03/2023

Sowing Date:
05/03/2023

Demo:
18/03/2023

Final Visit:
22/05/2023

Notes

- ✓ Trial was conducted to demonstrate the effect of Bloomfield's biological inputs along with payAgri's protocols
- ✓ 3 plots were taken per acre: T1 (payAgri protocol), T2 (Bloomfield products), T3 (mix of payAgri and Bloomfield)

✓ Success metrics were increase in yield, A grade cobs, cobb weight, cobb length, etc. With a 15 day touchpoint, the trials yielded favourable results, with T3 (payAgri and Bloomfield combination) yielding the best results
